Yenny Yulianny

LEAD PRODUCT DESIGNER

Product designer specializing in complex enterprise platforms and end-to-end product strategy. I transform fragmented systems into intuitive, scalable experiences that improve efficiency, enable cross-team collaboration, and deliver measurable business results.

EXPERIENCE

Lead Product Designer

JPMorgan Chase & Co | Palo Alto, CA | Aug 2021 – Present

- Lead design for enterprise platforms enabling bankers, appraisal specialists, and marketing/event teams to operate within a unified ecosystem, ensuring consistency across digital products by leveraging the Salt Design System.
- Designed AI-assisted data extraction and comparable property analysis tools, enabling appraisers to validate market data faster and reduce manual entry.
- Redefined information architecture and optimized cross-functional processes, improving usability, boosting internal team efficiency, and reducing campaign creation time from 45 to 15 minutes.
- Facilitated cross-functional workshops to align teams, define product roadmaps, and translate business strategy into scalable workflow solutions.
- Established reusable design standards and scalable frameworks to support long-term platform evolution and operational efficiency.

Lead Product Designer

Contract | San Francisco, CA | 2017 – 2021

- Partner with startups and growth-stage companies to define product vision and translate problems into scalable digital solutions.
- Owned E2E product strategy from discovery to production launch.
- Created scalable design and brand foundations that enable rapid iteration.
- Won 1st place at Ludum Dare game jam "Bento Bugs," creating all art assets and core game design in 72 hours, outperforming 2,000+ entries worldwide.

Product Designer

Contract | San Francisco, CA | 2020 – 2021

- Led the design and launch of web platforms across legal, public health, and nonprofit sectors.
- Conducted end-to-end UX research, wireframing, prototyping, and delivery of production-ready interfaces.
- Increased usability and user engagement through data-informed design improvements and iterative testing.

Freelance Designer

San Francisco, CA | 2008 – 2015

- Delivered branding and web design solutions for 20+ clients across commercial, hospitality, and retail industries.
